

CUSTOMER SERVICE

Your customers aren't leaving because of your *price.*

They're leaving because of **how you
made them feel.**

MISTAKE #1

02

Leaving customers on *"seen"*.

Every hour you wait, your customer is **asking your competitor** the same question.

DO THIS INSTEAD

Reply within minutes. Even "I'm on it, give me 10 minutes" keeps them with you.

Sounding like a *robot*.

Copy and paste replies make customers feel like a **ticket number**, not a person.

DO THIS INSTEAD

Use their name, match their tone and speak like a human who cares.

Winning the *argument.*

You can prove you are right and **still lose the customer** for life.

DO THIS INSTEAD

Listen fully, acknowledge the feeling, then solve the problem.

Disappearing after the *sale*.

The sale is not the finish line. Silence tells them they were just money.

DO THIS INSTEAD

Follow up in 3 days: "How is it going?
Anything I can help with?"

An untrained *team*.

Your front desk, phone and DMs **are your brand**.
One bad reply undoes a great ad.

DO THIS INSTEAD

Train every person who talks to customers.
Service is a skill, not a personality.
